\_\_\_\_\_ **Health Care Provider's Name Printed** \_\_\_\_\_ **Phone**

I hereby grant permission to the Chambersburg Area School District personnel to administer the above medication to my child. For the safety and protection of your child and all other students, School Health Services strongly recommend that the parent/guardian deliver the medication and this form to the school nurse, office or designee after the child's primary care provider has completed the form. It is the procedure of the Chambersburg Area School District to administer medication during school hours only when absolutely necessary. Prescription medication must be sent to school in the original container. For an over-the-counter medication, attach a label to the original container with the student's name, amount to be taken and how often it can be given. Do not send substitute containers to school.
